INTERNATIONAL SEARCH REPORT

International application No. PCT/SG2005/000022

A. CLASSIFICATION OF SUBJECT MATTER Int. Cl. 7: G11C 11/34 According to International Patent Classification (IPC) or to both national classification and IPC B. FIELDS SEARCHED Minimum documentation searched (classification system followed by classification symbols) Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched Electronic data base consulted during the international search (name of data base and, where practicable, search terms used) DWPI, PCT, USPTO, IEEE (IPC: G11C, phase change, chalcogenide, ovonic, multilayer, layer, laminar, stack, etc.) C. DOCUMENTS CONSIDERED TO BE RELEVANT Category* Citation of document, with indication, where appropriate, of the relevant passages Relevant to claim No. X the whole document US 2004/0026730 A1 (KOSTYLEV et al), 12 February 2004 the whole document EP 1 202 285 A2 (MATSUSHITA ELECTRIC INDUSTRIAL CO. LTD.), 2 May 2002 the whole document 1-12, 15-17, 20-23, 26-34 US 6,507,061 (HUDGENS et al), 14 January 2003 the whole document 17 US 5,363,329 A (TROYAN), 8 November 1994 the whole document 17 Variety Variety
According to International Patent Classification (IPC) or to both national classification and IPC B. FIELDS SEARCHED Minimum documentation searched (classification system followed by classification symbols) Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched Electronic data base consulted during the international search (name of data base and, where practicable, search terms used) DWPI, PCT, USPTO, IEEE (IPC: G11C, phase change, chalcogenide, ovonic, multilayer, layer, laminar, stack, etc.) C. DOCUMENTS CONSIDERED TO BE RELEVANT Category* Citation of document, with indication, where appropriate, of the relevant passages Relevant to claim No. X the whole document 1-12, 15-17, 20-23, 26-34 EP 1 202 285 A2 (MATSUSHITA ELECTRIC INDUSTRIAL CO. LTD.), 2 May 2002 the whole document 1-12, 15-17, 20-23, 26-34 US 6,507,061 (HUDGENS et al), 14 January 2003 the whole document 17 LUS 5,363,329 A (TROYAN), 8 November 1994 the whole document 17 EX Further documents are listed in the continuation of Box C X See patent family annex Special categories of cited document 13 Later document published after the international filing date or priority date and not in considered to be of particular relevance The conflict with the application but cited to understand the principle or theory
B. FIELDS SEARCHED Minimum documentation searched (classification system followed by classification symbols) Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched Electronic data base consulted during the international search (name of data base and, where practicable, search terms used) DWPI, PCT, USPTO, IEEE (IPC: G11C, phase change, chalcogenide, ovonic, multilayer, layer, laminar, stack, etc.) C. DOCUMENTS CONSIDERED TO BE RELEVANT Category* Citation of document, with indication, where appropriate, of the relevant passages Relevant to claim No. X US 2004/0026730 A1 (KOSTYLEV et al), 12 February 2004 the whole document EP 1 202 285 A2 (MATSUSHITA ELECTRIC INDUSTRIAL CO. LTD.), 2 May 2002 the whole document US 6,507,061 (HUDGENS et al), 14 January 2003 the whole document 17 US 5,363,329 A (TROYAN), 8 November 1994 the whole document are listed in the continuation of Box C X Special categories of cited documents: "T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory understand the principle or theory
Minimum documentation searched (classification system followed by classification symbols) Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched Electronic data base consulted during the international search (name of data base and, where practicable, search terms used) DWPI, PCT, USPTO, IEEE (IPC: G11C, phase change, chalcogemide, ovonic, multilayer, layer, laminar, stack, etc.) C. DOCUMENTS CONSIDERED TO BE RELEVANT Category* Citation of document, with indication, where appropriate, of the relevant passages Relevant to claim No. X US 2004/0026730 A1 (KOSTYLEV et al), 12 February 2004 the whole document EP 1 202 285 A2 (MATSUSHITA ELECTRIC INDUSTRIAL CO. LTD.), 2 May 2002 the whole document 1-12, 15-17, 20-23, 26-34 US 6,507,061 (HUDGENS et al), 14 January 2003 the whole document 17 X Further documents are listed in the continuation of Box C Special categories of cited documents: * To later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched Electronic data base consulted during the international search (name of data base and, where practicable, search terms used) DWPI, PCT, USPTO, IEEE (IPC: G11C, phase change, chalcogenide, ovonic, multilayer, layer, laminar, stack, etc.) C. DOCUMENTS CONSIDERED TO BE RELEVANT Category* Citation of document, with indication, where appropriate, of the relevant passages Relevant to claim No. US 2004/0026730 A1 (KOSTYLEV et al), 12 February 2004 the whole document EP 1 202 285 A2 (MATSUSHITA ELECTRIC INDUSTRIAL CO. LTD.), 2 May 2002 the whole document US 6,507,061 (HUDGENS et al), 14 January 2003 the whole document 17 US 5,363,329 A (TROYAN), 8 November 1994 the whole document To Special categories of cited documents: To later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
Electronic data base consulted during the international search (name of data base and, where practicable, search terms used) DWPI, PCT, USPTO, IEEE (IPC: G11C, phase change, chalcogenide, ovonic, multilayer, layer, laminar, stack, etc.) C. DOCUMENTS CONSIDERED TO BE RELEVANT Category* Citation of document, with indication, where appropriate, of the relevant passages Relevant to claim No. X US 2004/0026730 A1 (KOSTYLEV et al), 12 February 2004 the whole document EP 1 202 285 A2 (MATSUSHITA ELECTRIC INDUSTRIAL CO. LTD.), 2 May 2002 the whole document US 6,507,061 (HUDGENS et al), 14 January 2003 the whole document 17 X Further documents are listed in the continuation of Box C X See patent family annex * Special categories of cited documents: "T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
Electronic data base consulted during the international search (name of data base and, where practicable, search terms used) DWPI, PCT, USPTO, IEEE (IPC: G11C, phase change, chalcogenide, ovonic, multilayer, layer, laminar, stack, etc.) C. * Special categories of cited documents: "A" document defining the general state of the art which is not considered to be of particular relevance "T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
* Special categories of cited documents: "A" document defining the general state of the art which is not considered to be of particular relevance "T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
"A" document defining the general state of the art which is not considered to be of particular relevance "I" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
underlying the invention
"E" earlier application or patent but published on or after the international filing date "X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken
"L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified) "Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art
"O" document referring to an oral disclosure, use, exhibition or other means "Each document, such documents, such combination being obvious to a person skilled in the art document referring to an oral disclosure, use, exhibition or other means "E" document referring to an oral disclosure, use, exhibition or other means
"P" document published prior to the international filing date but later than the priority date claimed
Date of the actual completion of the international search Date of mailing of the international search report.

INTERNATIONAL SEARCH REPORT Information on patent family members

International application No. PCT/SG2005/000022

This Annex lists the known "A" publication level patent family members relating to the patent documents cited in the above-mentioned international search report. The Australian Patent Office is in no way liable for these particulars which are merely given for the purpose of information.
